I love building **frontends** and the **backends** that power them. I have an unhealthy obsession with **improving** things. I deeply enjoy **learning** and **teaching**. I hope to be the puzzle piece your **team** has been missing!

Work Experience

Staff Software Engineer

Direct Supply / Milwaukee, WI / Jun 2022 - Present

- Took ownership of an effort to modernize web projects across many development teams.

Software Engineer IV

Arch Capital Group / Remote / Jun 2021 - Jun 2022

- Maintained a complex web application used by property insurance underwriters to handle lifecycle and pricing for policies.
